

# SA315<sup>+</sup>

Dimension(W×H×D):446×738×458mm

# **Product Profile**

The SA315<sup>+</sup> speaker is a versatile all-in-one solution, supporting both XLR and 6.35mm jack inputs for microphone and line-level balanced signals, as well as featuring an AUX input and wireless Bluetooth connectivity for easy hookup with various portable audio sources. Independent gain control and master volume adjustment allow users to tweak the sound quality with ease. The internal mixing and balanced output design are perfect for setting up multi-speaker systems.

SA315<sup>+</sup> offers flexible installation options, with both ceiling suspension and pole mount, adapting to various environments. With its exceptional sound quality and user-friendly operations, the SA315<sup>+</sup> meets the demands of both professional and home users for a high-quality audio experience.

#### • HD Display

H E E

The speaker is equipped with a 240 (H) x 320 (V) pixel TFT display, providing clear image display.

### • Easy Operation

By rotating the encoder on the back panel, users can easily access the DSP settings interface.

#### • Bluetooth 5.0 with TWS Pairing

Supports Bluetooth connection with TWS (True Wireless Stereo) functionality, allowing users to achieve stereo wireless pairing.

#### Presets Available

The DSP has built-in multiple presets, catering to diverse applications.

#### • Personalized Audio Adjustment

Users can easily adjust the EQ, delay, and gain to tailor the sound to their personal preferences. Once adjusted, settings can be saved for convenient recall the next time they're needed.

#### • Signal LED Control

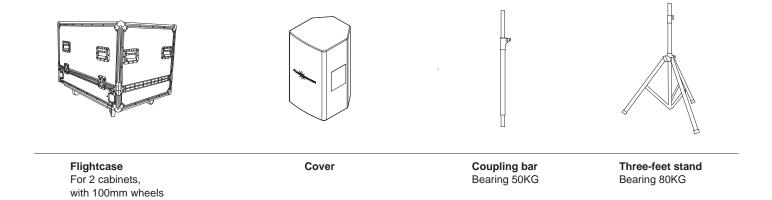

Users can set the front signal LED to turn on or off via the display screen interface.

#### Sleep Mode

Users can easily set the product's sleep mode through a simple operating interface.
